

Kamaljot Singh

SELF-TAUGHT DEVELOPER · CLASS 11 · JEE ASPIRANT

skamaljot007@gmail.com · @kamal_nandha_007 · akikends.online

PROFILE

16-year-old self-taught developer who learns by building and shipping real products. I work across the stack with HTML, TypeScript, Node.js, Firebase, Python and Java, with a particular interest in polished interfaces, practical web apps and small-business websites.

BUILD Frontend · Backend · Auth · Data	FOCUS AI concepts · Productivity · Business web
SHIP Responsive UI · Deployment · Iteration	APPROACH Useful first. Polished always.

TECHNICAL TOOLKIT

FRONTEND	HTML · TypeScript
BACKEND	Node.js · Firebase
LANGUAGES	Python · Java

VENTURE / FREELANCE

Aki Kends · Web Design & Development

Building custom websites for small businesses with a focus on strong presentation, responsive design, performance and a clear path for customers to take action.

akikends.online

SELECTED PROJECTS

Focus Lock

Productivity app concept centered on distraction-free timing and a clean deep-work session flow.

focus-lock-1.netlify.app

Home Contractor

Business website concept covering services, quotes and contact for a home renovation contractor.

demohomecontractor.netlify.app

Le Four

Bakery / restaurant website concept combining menu, story and booking-oriented presentation.

demolefour.netlify.app

Raw Cafe

Cafe website concept with menu highlights and a warm, simple ordering-style experience.

raw-cafe1.netlify.app

CURRENT FOCUS

Continuing to deepen full-stack development while balancing Class 11 studies and JEE preparation. I prefer learning through projects: identify a problem, build the product, polish the experience, and ship it.

PERSONAL EDGE

Curious, self-directed and comfortable learning whatever a project requires. My goal is not to collect technologies — it is to turn ideas into working software that people can actually use.
